PROFILE

I am a passionate software developer with strong experience in Java, Spring Boot, database systems (Oracle, PostgreSQL, MySQL, MongoDB), and building modern front-end PWAs. I enjoy designing robust systems, delivering high-quality software, and collaborating with cross-functional teams. I have hands-on experience with Java EE, Spring Security, Hibernate, JMS, Apache Camel, and cloud-native deployments. I am always eager to learn and take on new challenges in software engineering.

WORK EXPERIENCE

D Java Factory

2023 - PRESENT

Java Full Stack Developer

- Designed and developed a range of enterprise applications from HR systems, security platforms, scheduling tools, and port logistics solutions using Java, Spring Framework, Struts, etc.
- Backend services, APIs, and schedulers were implemented to synchronize workflows between different systems, also ensuring the data is consistent, reliable, and working efficiently.
- Security authentication and access control systems have been developed and optimized using smart card technology and centralized backend services.
- Enhanced the enterprise messaging platforms (EDI) responsible for the smooth exchange of documents between internal systems and external partners.
- Provided cross-platform solutions for the POS application in mobile and web.

Pinlon Group Hospital

2021- 2023

IT Help Desk

- Provide technical support to the hospital staff in troubles of hardware, software, and network in view of uninterrupted health services.
- Maintain and manage hospital IT systems of accounts, medical software, and arrangement of equipment while guarding data security and conforming to healthcare standards.
